INTERNSHIP / PROJECTS

Windals Precision Website (Internship)
- Technology Used - Flutter, Dart, Firebase Authentication, Firestore
- It is a full-featured website that we designed for Windals Precision to manage and keep correct records of their gauges, suppliers, and orders in order to minimize resource mismanagement and to efficiently execute their service

Portfolio App
- Technology Used - Flutter, Flutter Animations, Firebase
- It's an online portfolio app that contains information about my projects and academic life, as well as my abilities, accomplishments, and interests. The app also allows you to contact me and send messages, as well as a variety of animated features.

Shortest Path Finder Visualizer
- Technology Used - Java, Data Structures and Algorithm
- Visualization of how program finds path between starting node and ending node by using different color coding. It is actually very short demo of how google maps work to find path between source and destination.
